How to Fix It

Ask the owner of the group to grant you permission to send to the group, then try again. If the group is in your organization and you don't know who the group owner is, you can find it by doing the following in either Outlook Web App or Outlook.

- Locate and select the original message in your Sent folder.
- If you're using Outlook Web App, choose the group name located in the To line. If you're using Outlook, double-click the group name.
- In Outlook Web App, from the pop-up dialog box, choose Owner. In Outlook, choose Contact - the owner's name is listed under the Owner heading.

More Info for Email Admins

This error occurs when the group (distribution list) owner has set up permissions to only accept messages from certain addresses. To fix this the group owner must add the sender's address to the group's allow list.

This issue can only be fixed by the group owner.

For more information, see [NDR Response Code 5.7.124](#) in Exchange Online and Office 365.
